While the extent of the do posits is not known positively, there believed to be sufficient high grade of to make quite a fair sized shipment. Mr. Savage says that it is not unlike that the property will enter the list

regular shippers as a result of these developments. The two strikes will be opened up at once and a large force of opened up at once and a large force of men put to work getting out the ore. The news has created the greatest excitement in the district, and a boom is altogether likely as a result. Mining man who are familiar with the district say the find serves merely to strengther their confidence in the future of the section from a mining standpoint.

#### NEW PLASTER MILL.

Nephi May Have Rival in Field-A rangements Under Way. (Special to The Herald.)

Nephi, Dec. 11.-It looks very much though the Nephi Plaster & Manufa turing company, which has so long er joyed the distinction of being the onl plaster mill in Utah, is soon to have formidable rival in the person of another company, which is now in course of or-ganization and which will be incorporated

in the very near future.

T. C. Winn, former accountant of the Lou Dillon ... company already operating, and present manager of the Nephi reller mill, is at the head of the new movement, and holds in trust for the company to be organized an inexhaustible deposit of gypsum located about three-quarter miles east of Nephi City, of exactly the same quality as that being used by the other company in the manufacture of its plaster, being, in fact, the other end of the same deposit where it emerges on the opposite side of the mountain. The proposition of the new company contemplates the building of a modern mill on the main line of the San Pedro. Los Angeles & Salt Lake railroad, to which the gypsum will be hauled by team, for the manufacture of building, hard wall, dental and other plas-ters. The plant is to cost between \$25,000 and \$40,000. The ready market and grow-ing demand for the product to be manu-factured insures the success of the propo-

#### BIG INDIAN SOLD TO ENGLISH COMPANY

Deals and rumors of deals have been on for some time in connection with the on for some time in connection with the Big Indian copper mine, says the Grand Valley Times, but until last week there had been nothing of a definite nature done. Some time ago Mr. Bohm, a representative of Taylor's Copper company, a mining concern backed by London capital, came in here and looked at the Big Indian and other copper properties in that neighborhood. As soon as his report was made to his company they closed a deal whereby J. B. Skews and others relinquish all their rights in the property.

The exact figures of the sale have not been made public, but from all that can be made in a property to the control of the property. been made public, but from all that can be learned it is probably over \$100,000. W. P. Taylor, the head of Taylor's Copper company, and E. M. Slatter, another member of the company, have been here this week and looked over the ground at the mine in a thorough manner. Mr. Taylor would not say what are the intentions of his company regarding the mine, but he intimated that a mill will be creeted there as soon as arrangements. erected there as soon as arrangements to that effect can be made. A small force of men will be kept at the mine throughout the winter and as soon as spring opens work will be begun on a much larger scale.

#### FLORENCE WILL REMAIN INDEPENDENT OF MERGER Another Car on Local Market Carry

"I tell you frankly, and it is as true as

ing Good Values.

Sospel, there's nothing doing in regard to that rumored merger of the Florence with the Goldfield Consolidated Mines company. This is the whole of it in a nutshell," said A. D. Parker, vice president and treasurer of the Florence mine, to the Goldfield News recently.

Mr. Parker, who is a well-known railroad man of Denver, and vice president and general manager of the Colorado & Southern railroad, is now paying a short visit to Goldfield and one that is wholly unconnected, as he says, with any possible consolidation. Mr. Parker went on to explain that about a month or two ago, when Nixon and Wingfield were planning their combination, he and his associates were approached tentatively by them in regard to a possible merging of the Florence with the other companies, and to these advances a non-committal reply was given. Since then no other offer has been made by either side and the owners of the Florence have therefore no such combine under consideration.

Columbus Consolidated was the feature of yesterday's transactions on the floor of the local stock exchange. The stock was dealt in during both sessions, but the main activity took place during the forencon session.

The stock opened at \$6.40 and quickly rose to \$6.75, at which price 1,000 shares changed hands on the open board. In the afternoon the stock dropped almost as rapidly as it had risen, the closing price on the open board being \$6.00.

The buying is said to have been largely on eastern account, which has given rise to the rumor that the recent discoveries on the property are of greater import than has been given out. Nothing definite can be learned in this connection, however, although the stock is regarded as a strong one.

#### Caused by Litigation.

The removal of the plant from the Sait Lake valley comes as a direct result of the recent litigation over the matter of the smelter smoke, in which all the smelt-ers of the valley are involved. The reers of the valley are involved. The recent injunction imposed by Judge Marshall of the federal court is of a nature
which if allowed to become effective will
compel the removal or shutting down entirely of every smelting plant in the valley. The most likely course of action will
be the removal of all the plants to some

#### RECEIVER FOR **BULLFROG RUSH**

The Bullfrog Rush Mining company has passed into the hands of a receiver at the instance of its own officers, according to the Goldfield News. This property was advertised pro and con to the extent of probably \$100,000. It was good; it was bad; it was indifferent. It was to sell: it was to purchase: it was to leave alone; it was to wait. Bullfrog Rush was a combined promo-tion of Dr. J. Grant Lyman and the L. M. Sullivan Trust company. They quarreled. Officers resigned. There was a struggle for control that lasted for months and now, apparently no one owns it, for W. A. Ingalls, sheriff-elect of Esmeralda county, is receiver, having been duly appointed by the court and having qualified by giv-ing bonds in the sum of \$10,000. The disappearance of Lyman brought about this new development. The L. M. Sullivan Trust company. Governor Sparks, John S. Campbell and L. M. ### DISTINGUISHED

VISITORS IN CAMP

A good deal of capital was represented in the visit to Goldfield this week of a party made up of Pittsburg and Salt Lake people, says the Goldfield News. They are the chief owners of the old Blair mine at Silver Peak, now known as the Pittsburg Silver Peak company, and their coming to Nevada had as its main object a visit to this big property. The party was made up of Frank Knox, president and principal stockholder in the National Bank of the Republic of Salt Lake and a director of the Pittsburg Silver Peak Stee Icompany of Pittsburg, the works of which are now operated by the United States Steel corporation. Gus Oliver, a son, and Henry Oliver, a nephew, of the former: George Flynn of Pittsburg, and conented with a large concentrating firm: P. J. Crump, treasurer of the Pittsburg Silver
